Access to East Kellogg toll plaza to change

WICHITA, Kan. – Access to the Kansas Turnpike’s East Kellogg toll plaza will change on June 15 due to the opening of the south frontage road, west of Webb Road, and the impending removal of the original ramp to the toll plaza from eastbound Kellogg. Specific changes effective June 15 (weather permitting) include:

- The toll plaza will remain open to local traffic via the new south frontage road.
- An official detour directing eastbound Kellogg traffic to the K-96 toll plaza will be provided for non-local traffic desiring to access the Turnpike.
- Westbound Kellogg will use the U-turn at Rock Road then stay on the south frontage road to access the toll plaza.

Drivers are encouraged to plan ahead and stay informed to improve their travel during these changes and throughout the project. More information is available at www.e54ict.com and via Twitter at @E54ict.

###

About East Kellogg Improvements:

East Kellogg improvements is a multi-year partnership between the City of Wichita, Kansas Department of Transportation and Kansas Turnpike Authority. Construction on the first East Kellogg Improvement project started in August 2015, including a redesigned Kellogg and Webb intersection and widening of Kellogg from Webb to Greenwich. A second project, started in 2016, will continue widening Kellogg to a six-lane freeway between Greenwich and K-96. In addition, new ramps will be constructed for southbound I-35/KTA to westbound US 54 and eastbound US 54 to both northbound and southbound I-35/KTA. Both projects are expected to be complete in late 2021, weather permitting.
