

**Kansas Turnpike Authority**  
236 MILES OF POSSIBILITY

September 20, 2016

**RE: Road Construction of Kellogg between Greenwich and K-96**

Dear Resident/Property Owner:

Wildcat Construction will continue construction along East Kellogg, in the second project of improvements along this corridor reaching from Greenwich to K-96. The Kansas Turnpike will serve as the project manager through a partnership with the City of Wichita and the Kansas Department of Transportation.

**A public information meeting for this project will be from 6 to 7 p.m., Tuesday, September 27, at Seltzer Elementary School, 11660 East Lincoln, Wichita, KS 67207.**

Construction begins this week, with roadways to be completed in late 2021 and landscaping and cleanup finished summer 2022, weather permitting. At its conclusion, this project will include a six-lane freeway on Kellogg between Greenwich and K-96, and improved access to the Kansas Turnpike.

Construction will occur in phases, beginning with utility relocation. Frontage roads on both the north and south sides of Kellogg and select ramps to KTA are planned next, followed by construction on Greenwich and Kellogg. Remaining KTA ramps will complete the contract.

Please expect some delays as a result of this construction. Message board signs will notify motorists several days in advance of any lane and road closures. Access to businesses will be maintained. Driveways within the project limits will be reconstructed, with modified access provided as possible. Intermittent flagging of traffic may occur during work hours.

We encourage you to stay up-to-date on these projects by going to [www.E54ICT.com](http://www.E54ICT.com) and following on Twitter @E54ICT. Drivers are urged to **plan ahead, stay connected and follow roadway direction signs to improve their commute.**

Ultimately these improvements will have lasting benefit to this area, as well as the city. We will do our best to minimize the inconveniences along the way, and certainly appreciate your support and cooperation in the meantime.

If you have questions regarding this project, please contact Wildcat Construction at 316-440-7280, or myself at 316-682-4537 X2672.

Sincerely,

Glen Scott, P.E.
